Hallmark of innovation

TM^{Plus} Layer

Layer trace minerals enriched with Vit.D₃

TM^{Plus} Layer

Layer trace minerals enriched with Vit.D₃

TM^{Plus} Layer is an exclusive sulphate based highly bioavailable trace minerals mixture for layer enriched with Vitamin D₃ and absorption enhancer for better performance and immunity.

Each Kg Contains

Manganese	80 g
Zinc	80 g
Copper	15 g
Cobalt	0.1 g
Iodine	1 g
Selenium	0.2 g
Iron	60 g
Chromium	0.2 g
Vitamin D ₃	3000 IU

Feature

- Tailor-made combination for layer
- Highly bioavailable sulphate based minerals
- Enriched with Vit.D₃
- Heavy metals and Dioxin within the permissible limits
- Quality assured for elemental concentration

Benefits

- Improves egg production
- Reduces Trace mineral disorders
- Reduces Broken egg %
- Improves egg shell quality
- Improves immunity

Mixed Ration : 1kg / tonne of feed

Presentation : 25 kg bags
