Flavinta

Most Preferred Flavour for Dairy Cattle

Flavinta

Most Preferred Flavour for Dairy Cattle

COMPOSITION

Flavinta is a fresh - fruity flavor along with sweetener to deliver the ideal sensorial solution for your dairy animals. Flavinta is a high-quality flavors with long-lasting sensory effects, optimal feed acceptance and a consistent feed intake. The number of taste buds in cattle is approximately 25,000 compared to 9,000 in human and only 24 in chickens, thereby allowing cattle to have a better response to the feed flavours.

Flavinta is available in Mixed Fruit, Lacto Vanilla, Coconut and Molasses Flavours

BENEFITS

- Long-lasting sensory effects
- Enhanced smell and taste
- Stable during processing
- Masks unpleasant smells & enhances the palatability of feed.
- Increases cattle affinity to feed and improves consumption

RECOMMENDATION

500g - 1kg per ton of feed

PRESENTATION

25kg bag
